

## NAILS : VISION PROFESSIONAL

Introducing our Stunning New 'Vision Professional' Range of Nail Art Colours and Stencils. A Total concept for Professional Air Brush Technicians.

## FINEST DETAIL, FLAWLESS FINISH

With Mist Air's range of equipment, Nail paints, stencils you have the very best in the business. Mist Air's 'Vision' range was developed with some of the most respected Nail artists in the world, including 'The Untouchables'.

The Untouchables are well known for their airbrushing skills and nail artistry; they work with some of the top names in the fashion industry and have presented work that has graced many top fashion shows and beauty publications.

The 'Vision' range of Nail Art airbrush colours includes transparent, opaque, metallic, shine and even holographic colours.

They can be easily mixed to create an unlimited colour palette and have the unique property of great surface tension to prevent spillage yet liquefying with just one shake!

Nail art products are available as individual items or as complete packages.

Metallic Red - Brilliant Red Metallic / Metallic Blue - Brilliant Blue Metallic / Metallic Green - Brilliant Green Metallic / Metallic Brilliant Silver - Genuine Metallic Silver (all translucent)

Metallic Dark Ice - A unique, newly developed, neutral light-dark effect which gives the observer the impression that she is looking at the object from underneath an ice cap.

Metallic Dark Copper - Produces a particularly brilliant shiny copper effect.

AERO HOLOGRAPHIC

Aero Holographic are multi colour effect colours. Their unique effect depends on the structure of the surface they are painted on and create a fascinating play of colours. The colours change when the observer changes angle. The darker the colour of the background, the clearer the effect becomes.

Aero Holographic Silver Violet - A fantastic play effect of silver through green nuances to violet.

Aero Holographic Gold Red - Attractive multi-colour effect from gold to red.

Aero Holographic Space - This shade produces unique, multi-coloured effects. Depending on the incidence of light, a fascinating holographic like play of colours with silvery base colours develop. This emphasises the shape of the surface through interesting reflections.

Vision Professional effect colours can be divided into 3 groups based on their special effect

SHINE

These colours produce a mother of pearl effect that shimmers discreetly on bright surfaces but gives off a metallic shine on dark backgrounds and when combined with transparent shades.

Depending on the angle there is a gradual colour change from the colour of the background to the actual Shine shade.

Shine Silver - A shiny, silver-white, mother of pearl effect, combined with a black, gives a bright silver grey to and old silver shade.

Shine Gold - A shiny mother of pearl effect, which makes for subtle golden glittery shades when combined with glazed colours.

Shine Blue - A shiny blue, mother of pearl effect; in some colour combinations also unmistakable, subtle blue metallic shades.

OPAQUE & TRANSLUCENT METALLIC

These shades are metallic that stand out due to their special brilliance and shininess. Produce unique colour effects when combined with bright and effect colours.
